3M - Global capability, local back up

3M produces over 70,000 existing products many of which are designed specifically for the electrical, electronics and telecommunications industries.

We invest in over \$1 Billion a year on R & D and employ over 7,000 research engineers dedicated to meeting your needs. By working closely with our customers we are able to apply our vast experience in cutting edge technologies where it counts the most: optimizing your product or system capabilities. Working with 3M you're on the receiving end of the unrivalled support of a global company - with a strong local presence.

Moreover, all our products are independently tested to the major industry standards.
